

SmartSensor

Surface Resistance Meter

Our surface resistance meter measures the resistance value of a surface by placing two parallel electrodes on any surface substrate.

Resistance range:

10^3 - 10^5 OHM - Conductive material

10^6 - 10^{11} OHM - Static Dissipative material

10^{12} OHM - Insulative material

LCD display, temperature unit display, power on/off key, data hold key, back light key, minimum hold key, battery door (one 9V) ground wire jack input, contact probe.

Price: \$89.00 + shipping
